

Program Goals

Cathy's Nursery School is an educational program designed for 3-5 year old children through play. We help the child develop socially, emotionally, physically and cognitively. We will follow a flexible daily schedule that meets the individual needs of the diverse population of children and families served by our program, including those with cultural, language and developmental differences.

Children are encouraged to explore, create, interact and communicate so they can become problem solvers, and thinkers, and so they can reason and socialize. We help the children develop listening skills, large and small motor skills and cognitive skills.

Social Goals: Conflict resolution, self control, manners

Emotional Goals: Confidence, self expression and attention span.

Discover, explore and learn in a safe environment while having fun!

Three-Year-Old Program

Play based

Teach rules and routines to promote predictability and confidence

Modeling good behavior

Four-Year-Old Program

Prepare for the demands of kindergarten and beyond

Reach developmental milestones

*** Lunch Bunch and Extended Day options available for all children (if spaces are available)**
